

**POST CONSTRUCTION
FLOODPROOFING CERTIFICATION**

This form must be completed by either a **registered professional engineer, architect, or a licensed land surveyor.**

I CERTIFY that the structure, together with the proposed utility and sanitary facilities, was constructed so that the structure is watertight to an elevation of _____ NGVD (mean sea level), with walls substantially impermeable to the passage of water and structural components having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy.

Utility and sanitary facilities were constructed with backflow prevention devices meeting City of Jefferson standards.
